EPOX 66

PRODUCT DESCRIPTION:

- **DEFINITION:** Is an epoxy coating curing with polyamides, high-solids content, formulated to protect steel and concrete.
- **USE:** In all maintenance abrasion-resistant and tank lining. Also used for concrete pavements, with medium mechanic strength.
- **PROPERTIES:** Resists harsh marine environments and an extremely high nuclear radiation. It has a high body to be thixotropic.

TECHNICAL INFORMATION

| | |
|------------------------------------|-----------------------|
| Aspect..... | SATIN |
| Color..... | RAL TONES |
| Specific weight..... | 1.4 Kg/Lt. |
| Proportion..... | 2/1 in volume |
| Lifetime mixing..... | 8 hours approx. |
| Volume solids..... | 64% +/- 3 |
| Recommended thickness..... | 100 MICRONS |
| Theoretical performance..... | 5 M ² /Kg. |
| Storage time at (5 to 40 ° C)..... | 1 / 2 YEAR APPROX. |
| Drying 20 °C/70% RH | |
| Touch..... | 4 HOURS APPROX. |
| Overall | 8 HOURS APPROX. |
| Repaint | 24 H. APPROX. |

APPLICATION INSTRUCTIONS:

- **Method**
Brush, Roller, Airbrush gun, conventional Air-Less.
- **Dilution**
EPOX-66 Solvent.
- **Cleaning**
After use, clean all equipment with our **EPOXI-ORIGINAL Solvent.**

SURFACES PREPARATION:

Should be applied on appropriate primer layers and the surface must be clean of dust and grease.

HYGIENE AND SECURITY:

- Being a flammable product, keep away from sparks and flames.
- It is recommended the most appropriate respiratory protection to each case by the corresponding mask.
- Avoid prolonged inhalation of solvent vapors.
- During the application have adequate ventilation and maintain a constant air renewal.
- Avoid eye and skin contact, if product comes in contact with skin, wash with soap and water.
- If the product splashes eyes, rinse with water several times; always consult your doctor or the National Institute of Toxicology, Phone Number 91 – 562.84.69.

Comments

- * When performance practical calculation take place it is necessary to be considered product losses by surface irregularities and application system.
- * The solvent addition proportionally modifies the solid content in the paint and therefore the thickness of wet film.
- * Our Technical Department will be pleased to answer as many as questions that you are planning to ask.

Our technical service is at your disposal for further information in this booklet as well as to advise on special treatments, systems, process and the best products, according to the surface, environments and needs they wish to cover.

In this sheet, we just trying to inform and advice to our best knowledge, based on experience and research. We cannot be responsible for the consequences of using this product when application conditions and circumstances fall out of our reach and control.
